Compulsion Bill Passes Reading 403 to 105

NINE YEAR OLD GIRL LOSES LIFE IN ST. REGIS APARTMENTS FIRE LAST NIGHT

Appeal of A. J. Balfour Rouses Lagging Spirits

Brilliant Speech of First Lord of Admiralty in British House Turns Tide of Adversity Running Strongly Against Government Compulsory Service Bill—Great Ovation is Given Premier Asquith When Result of Voting is Known—Conscription No Longer Abstract Question Says Asquith.

(By Morning Bulletin Leased Wire)

LONDON, Jan. 6.—An scenes of wild enthusiasm, the House of Commons tonight passed the first reading the government bill for compulsory military service by the decisive vote of 403 to 105. The vote came shortly before midnight, with the debates again packed, every seat on the floor of the house occupied, the ministerial benches used, and an air of eager expectancy prevailing. The events of the day increased the tension to a high pitch, notably the action of the Labor congress, and the quick repeal of the retirement of three labor members of the ministry, Arthur Henderson, president of the board of education; Wm. Brice, parliamentary under secretary for home affairs; and George H. Roberts, lord commissioner of the treasury.

Throughout these developments outside of parliament, the debate in the House had forced steadily ahead, but had been left lagging to lesser figures. It was reserved for A. J. Balfour, first lord of the admiralty, to close the debate in behalf of the government, and he did in a persuasive speech of an hour, which roused the lagging spirits of the advocates of the bill and turned the tide of adversity which had been running steadily against this measure through the debate and the outside events of the day.

Appeal For United.

"Let this vote tonight show that we are a united people," was his closing appeal. "Do not let us give a false impression to the world that in this moment of the country a grave emergency, we are divided as regards the other. Abandon your abstract theories and remember we are dealing with grim realities which call for great sacrifices."

Then came the vote, which was taken amid eager interest as the members filed before the tellers, and peers crowded to their all cloves to witness the final result. The announcement of the figures was received with a tremendous outburst of cheering, which rang through the chamber and was echoed to the waiting crowds outside. Scores of members in white waited their handkerchiefs and the air was filled with white papers flung in triumph at the government's success.

Great Ovation For Asquith.

Amid the demonstration, Premier Asquith, his face usually pale, now glowing with satisfaction, walked down the floor of the chamber. His appearance was the signal for a rapturous ovation, members of all sides standing and cheering, while the galleries could with difficulty be restrained from joining in the enthusiasm.

An analysis of the vote showed that the government had held the great bulk of the Liberal and Conservative vote. The Irish Nationalists had voted against the bill, but the Labor unionists supported the measure, and the O'Brienites used no part in the division.

The ministry showed a sprinkling of Liberal members, the most notable John Burns, the former cabinet member. A number of Labor members also voted with the opposition.

Notable Feature of Debate.

Mr. Balfour's closing speech was the one notable feature of the debate. He spoke with great earnestness, but with good-natured confidence, which kept the members between applause and laughter.

This measure, he declared, was not designed to settle the military policy of Great Britain. It was for the present occasion, and the present war. "I have never favored conscription in any form," said the first lord, "but it is no longer an abstract question. We are dealing with a stern reality. First, the prime minister and others would pledge for this bill, which it would be dishonorable to ignore, and second, the safety and success of the country is at stake. Let me say, with the greatest emphasis, that I know of no who know the conditions in the details, know that this bill is absolutely essential in the proper carrying on of the war.

"If this house refuses the bill to the government, it refuses what the government considers an absolute military necessity. This is not a precedent for universal conscription. It is not the thin end of the wedge, or the first drop of poison to corrupt our whole system. In fact this bill is a tribute to voluntaryism, for we have raised six million volunteers, and now this isn't merely brings in those few slackers who have failed to respond to the volunteer system.

Not a Precedent.

"No future prime minister ever use this bill as a precedent for permanently fixing on the country the taint of Prussian militarism. Militarism is an affair of the heart, and is in the hearts of the German people to save militarism, while it is in the hearts of Englishmen not to have it. But for the moment we are dealing with a stern necessity, and our greatest danger is not that traditions will be abandoned, but that we by selling ourselves with a great desire of national security."

Premier Asquith, Sir Edward Grey and the other ministers warmly congratulated Mr. Balfour as he closed his appeal.

LATEST FIGURES SHOW 336 MISSING FROM PERSIA

ITALIAN LINER CARRIED GUNS

Was Prepared for Attack by Submarines—Gunners Practiced at Barrels Thrown Over

(By Morning Bulletin Leased Wire)

NEW YORK, Jan. 6.—Gunners of the Royal Italian navy were in charge of the two guns on the Italian liner Giuseppe Verdi, which arrived here today from Genoa, Naples and Palermo, according to Captain Seanonni. After the vessel left Palermo, the captain said, daily practice was held with the guns, barrels having been thrown overboard as targets.

The guns were placed on the ship by order of the Italian navy authorities, but the captain declares he was instructed to use them for defense purposes only. The two gunners became quite proficient in the practice of shooting at the barrels, passengers said. The guns were mounted in the after-house of the vessel, one on each side and were at such a position as to command all positions from the ship. The captain declared the guns as being capable of firing a shell weighing 55 kilos four and a half miles. When the Giuseppe Verdi docked here, F. A. Dewey, a member of the port neutrality squad, inspected the guns and reported his information to Dudley Field Malone collector of the port. The guns were still on the ship and no action will be taken by local officials until a report of the investigation has been made to Washington.

WAS DELAYED BY STORMS.

The French liner La Touraine, which sailed from Bordeaux on December 24, arrived for New York Thursday a few days late, having been held up by the gales which have raged over the Atlantic in the past week.

MANY RECRUIT IN EAST.

Five hundred and eighty-two recruits enlisted in the maritime provinces last week, 247 of them from Nova Scotia. More than 200 officers are at Halifax. N.S., from various parts of the maritime provinces taking the various courses of military instructions.

ORGANIZED LABOR STRONGLY AGAINST ALL COMPULSION

Hostility To Government Measure of Most Uncompromising Kind

LONG DISCUSSION ON PROPOSED ACT

Members Who Favor Compulsion Make Strong Pleas For Support

(By Morning Bulletin Leased Wire)

LONDON, Jan. 6—Organized labor of Great Britain, sitting in congress in London today, decided against the government's compulsion bill by the overwhelming majority of 1,998,000 to 783,000.

Hostility to the government's measure was uncompromising and necessitated the resignation from the coalition ministry of all three labor members, Arthur Henderson, William Grace, and George H. Roberts, holding respectively the offices of president of the board of education, parliamentary under-secretary for home affairs, and lord commissioner of the treasury, and their resignations were announced during the evening. The labor congress was in many ways the most important body of the kind ever assembled. More than one thousand deputies were present, representing four hundred unions and three million workers.

Against All Compulsion.

In addition to the formal vote against the government's compulsion bill, the congress expected, by four to one, a motion pledging support to the principle of compulsion for single men, and passed, by two to one, another motion directing the labor party to oppose the bill in all its stages in the House of Commons.

The congress closed with an enthusiastic scene, the feature of which was the singing of the socialist anthem, "the Red Flag," by some of the delegates.

Firebrand Speaker.

One of the early speakers, James Henry Thomas, assistant general secretary of the Amalgamated Society of Railway servants, bitterly made to force enthusiasm. He was an out-and-out-compulsion speaker, appealing to the trade unions "not to filch their heritage of freedom."

British Report.
(By Morning Bulletin Leased Wire)
LONDON, Jan. 6 (11:50 p.m.)—An official communication issued this evening concerning the British forces on the continent says:

"In addition to the raid on the aerodrome at Douai, another raid was carried out yesterday by eleven of our machines against a stores depot at Lesars. This morning one of our patrols dispersed a party of Germans just north of the Somme, which has grenades. The artillery activity on both sides today was greatly increased, confined to the areas of Armentieres and southeast and northeast of Ypres."

French Report.
PARIS, Jan. 6 (11:45 p.m.)—The following official communication was issued by the war office tonight:

"In Belgium we successfully cannonaded the defensive organizations of the enemy particularly in the regions of Steenstraete, Het Sas and Boesinghe. In Artois our batteries dropped projectiles on the railway station at Roulecourt, on the hill south of Arras, during the passage of a train. In Champagne, in the course of an intense bombardment by our artillery on the German trenches to the north of Navarin farm, we destroyed all the material of attack dispositions, accumulated in the enemy's trenches, several reservoirs being blown up.

Russian Report.
PETROGRAD, via Lardon, Jan. 6 (10:15 p.m.)—The following official communication was issued today:

"From the Gulf of Riga to the Pripet River, at various points, there have been infantry firing and artillery duels between the combatants. In the region of Riga, at many places, the Germans are using great activity. In the south of the region of Dvinsk we occupied the Cemetery at Czartorysk, and, driving out the enemy, made further progress. On the Strips front and northeast of Czernowitz, our troops fired unceasingly, and in the course of an intense bombardment in the region of Bojana we repulsed by our fire. There is no change in the situation on the Caucasus front."

Austrian Report.
VIENNA, via London, Jan. 6—There has been a notable lessening of the activity of the contending forces in Galicia and on the Bessarabian front. In Roumania not having any decisive attack, although keeping up artillery fire, the official statement issued by the Vienna war office this evening.

Firemen Have Long Fight In Below Zero Weather

By Hard Work and Abundance of Water Flames Are Kept Down. Fire is Believed to Have Started From Furnace in Basement. Building Was Occupied by Large Number of Roomers—Little Girl Who Lost Her Life, Failed to Escape With Her Family.

From half-past ten last night till well in the early morning hours, with the thermometer far below zero and a biting wind sweeping down the street, the city fire brigade fought a deep seated fire in the St. Regis apartments on Namayo avenue, formerly known as the St. Regis Hotel. The building, a three story brick structure, was badly damaged, especially in the southern part, and it was only by the utmost expenditure of efforts of the brigade, aided by a flood of water, that the blaze was kept from spreading. The fire is thought to have originated from the furnace in the basement.

Child Lost Her Life.

The building was well filled with roomers, some eleven families being resident there, many escaping in their lost night clothes. One life was lost, that of a nine-year-old girl, Elevyn Johnston, daughter of Private Johnston, of the 66th Battalion. She failed to escape from the smoke, having failed to find her way out.

A Second Call.

While the firemen were fighting the flames on Namayo, a call at 11:30 was sent in from the Trent Apartments, at Nos. 123 and 125 street. Fire had started in the basement, and when the firemen arrived it was filled with smoke, which was also coming up into the first floor. After battling for about half-an-hour the conflagration was quelled, without much damage.

Alarm Turned in at 10:27.

The alarm was turned in at 10:27 p.m. by Max Citron, a roomer returning home, who noticed smoke coming from the building while walking up the street. Calling "fire," he rushed to get in to warn his family who were in the building. In the dut drag, and then pulled the fire alarm box at the nearby corner. Then hurrying back to the building, he caught a child which was falling from the smoke and others who were in the rooms of their escape. It took the child to the outside of the building and then gave the alarm to the fire brigade by pulling the fire alarm box.

Girl Was Missing.

The family of Private G. G. Johnston occupied Rooms 40 and 41. They were in bed asleep. Mrs. Johnston woke with the smoke, and had difficulty in rousing the rest. She grabbed the baby and then tried to get the other children out. The smoke was too much, and it became so dense that she almost fainted. When they got out, nine-year-old Evelyn was missing. A search was made in Rooms 40 and 41, but the child had evidently been smothered by the smoke, and her body was afterwards found in Room 38. A coroner's inquest will be held this evening.

Rooms Searched For Occupants.

In the excitement the roomers and lodgers were put to the windows, and the rooms were searched for occupants, all of whom had already made their exit by the fire escapes. The fire appeared to originate in the basement, it is thought, from an over-heated furnace, but the smoke spread through the building at a rapid rate and was soon coming from nearly every window of the three story building, which occupied four floors on the east side of Namayo avenue, just north of Elizabeth street.

The building was formerly used by Cushing bros. as a sash door factory, but was later remodelled into the St. Regis Hotel, and afterwards changed into an apartment block. About three years ago it was sold to the London and British North America Co. Ltd., for $65,000.

The St. Regis Apartments had 37 rooms, and about 24 suits were rented to regular tenants. A few other rooms occupied by transients.

Occupants on Ground Floor.

"Not there only did the Turks fail densely for their recapture of the vital crest. Enemy reinforcements continued to move up under a heavy and severe fire from our guns. Still they kept popping the ridges, and from one western slope of Chunuk Blair as if determined to gain everything they had in view. But once they were over the crest they became exposed, not only to the full blast of the guns, naval and military, but a battery of two New Zealand machine guns which played upon their serried ranks at close range until their barrels were red hot.

Enormous Losses Inflicted.

"Enormous losses were inflicted, and the swarms which had once fairly crossed the crest line, only a handful were struggled back to rejoin the vital battle ranks. The operation began on August 6th. The climax was reached at daybreak on the 10th, when the Turkish troops made a grand attack from the summit of Chunuk Bair and succeeded in driving our men off a short front held by two battalions of the 38th North Lancashire and the Fifth Wilshires who were caught up in the

New School Board to Again Take Up Teachers Salaries

Question is Referred to School Management Committee For Report. W. L. Richardson, Supt. of Technical School, Who Resigned Because of Salary Cut, is Given Year's Leave of Absence.

The new school board which met for the first time last night, did not get off to a f'ing start with the New Year, for as soon as the organization work had been completed they were reminded by deputations and communications of the actions of the old board, with petitions for reconsideration of some of those actions. A petition was presented from the teachers of the city, for reconsideration of the action to make a five per cent. reduction in salaries over $1200. It was felt that as the petition had been so extensively signed that the teachers the board should give it due consideration, and it was subsequently recommended that the school management committee for a report. The resignation of W. L. Richardson, director of technical education, because his salary of $3,300 was reduced, was also discussed, but that official, after some discussion, consented to take a year's leave of absence instead, and one of the members of the board favoring this alternative rather than lose him altogether. Dr. Richardson said whether they accepted the resignation or granted him leave of absence, he should, as founder of the Edmonton technical school, taken an interest in it. The appointment of a new head at the technical school would lose the school management committee, who will bring in a report.

The first business was the introduction of new members, the board being present. Trustees Barnes and Ramsay; the re-elected trustees, were also present, as well as the old members, and also former was elected chairman for the year. Trustee Ramsay nominated J. J. McKenzie, last year's chairman, but Mr. McKenzie declined the honor, remarking that he thought it should go around. He nominated Trustee Barnes, and he was elected by acclamation.

The board immediately proceeded to the formation of the standing committees and the following were appointed, with the first-named in each acting as chairman:

Finance—Trustees McKenzie, Rea and McPherson.

School Management—Trustees Rea, Ramsey, Douglas, McPherson.

Building and Grounds—Trustees Globe, Douglas, McKenzie.

Supply—Trustees Ramsey, McKenzie, Globe.

When the matter of W. L. Richardson's resignation came up, some members of the board thought Mr. Richardson had other reasons for resignation than the question of salary, as stated in the letter, and give him an opportunity to state them. He replied that he was not going to yield to the halt held out, but there were one or two things he wished to say. The immediate reason for his resignation was the reduction of his salary, but there were a number of other matters that led up to the action he had taken. There had been difficulty in the way of his attending to duties at the technical school, and the development of the work would be arrested, and the next two years would not see the progress he had mapped out. He also wished to take a post-graduate course, and desired to get away for that purpose.

Moves for Leave of Absence.

Trustee Rea said they would be sorry to lose Mr. Richardson, and that realized the value of the work he had done. He moved that Mr. Richardson be granted a year's leave of absence without salary.

Chairman Barnes said Mr. Richardson was the founder of technical education in the city and the technical school was doing good work, and it was to keep him altogether. He was in favor of the proposal of Trustee Rea.

Trustee Ramsey thought the director of technical education knew his own mind, and moved in amendment that the resignation be accepted.

Trustee Douglas and McKenzie said they thought there was only one thing to do, and that was to accept the resignation. Mr. McKenzie later voted to grant leave of absence.

Dr. McPherson closely, keeping in touch with Mr. Richardson.

On being put to a vote the amendment was lost and the motion of a year's leave of absence was granted. Voting for the motion were Trustees Rea, Globe, McPherson, McKenzie and Chairman Barnes.

A petition was received from the old school board asking for an estimate of the losses which would be involved

Great Heroism of Troops at Gallipoli Was Nullified by Blunders of Leaders

Graphic Official Report of General Hamilton's Operations is Marvellous Story of Unheard of Bravery of Men and Continued Mistakes of Authorities—Strong Arraignment Indirectly of Government For Failure to Meet Repeated Demands for Reinforcements When Success Was Almost Within the Grasp of the Allied Forces.

(By Morning Bulletin Leased Wire)

LONDON, Jan. 7.—Both the home government and the generals at the front are subjected to severe criticism in the London morning papers today as the result of the publication of General Sir Ian Hamilton's report.

The authorities are especially blamed for their failure to meet General Hamilton's repeated demands for reinforcements, the lack of which caused the collapse of the military plans. In contrast to what is termed the inefficiency of the higher commands, the greatest admiration is accorded the heroic conduct of the men under the terrible conditions.

The Times, in an editorial, considers the report as frank as the circumstances would permit or the nation has any right to expect.

Heavily Shelled.

"First our men were shelled by every enemy gun, he said, 'then assaulted by a huge column, consisting of no less than a full division plan three battalions. The North Lancashire men were simply overwhelmed in their shallow trenches by sheer weight of numbers, while the Wilshire men were caught out in t he open, were literally almost annihilated.

"The ponderous mass of the enemy swept over the crest and swarmed around the Hampshire and formed Baldwin's brigade, which had to give ground and were only extricated with great difficulty and very heavy losses.

"Now it was our turn. The warships and the New Zealand and Australian artillery, Indian mounted artillery brigade and the 69th brigade had every chance of getting the chance of a lifetime. An excessive solid mass of Turks topped the crest of the ridge guns were torn through their formations, and an iron rain fell on them as they tried to reform in the gullies.

LONDON, Jan. 7.—Both the home government and the generals at the front are subjected to severe criticism in the London morning papers today as the result of the publication of General Sir Ian Hamilton's report.

It tells the story of the fighting on the peninsula from the beginning of May to the middle of October. Probably no more important contribution to the history of the war has as yet been made. The report throws light upon the landing at Anzac Cove and Suvla Bay on August 7th, which has been the subject of strong attacks upon the military administration of the government, the whole operations requiring the concluded action of the army and the navy.

Reason of Failure.

The handling of the masses of troops within a limited area probably was the most complicated ever undertaken, and military men are surprised that some important details failed to work out as planned.

General Hamilton bestows the highest possible praise upon the bravery of his men, but the retreat for that reason, as I was informed by our lordship on my arrival, that his majesty's government desired fresh unbiased information on the subject.

The most striking passages of the document describe the ill-fated heading at Suvla Bay and Anzac early in August by seizing command of the heights on the middle of the peninsula and cutting off from their base the Turkish forces at the lower extremity, where the allied armies made their first landing. This operation began on August 6th. The climax was reached at daybreak on the 10th, when the Turkish troops made a grand attack from the summit of Chunuk Bair and succeeded in driving our men off a short front held by two battalions of the 38th North Lancashire and the Fifth Wilshires who were caught up in the

WOMAN SUFFRAGE.

Its War Time Aspect.

London, Eng. The women of England are doing their duty. They are taking care of the wounded, or if they cannot assist in work of that kind they are adding their savings to promote the good work. They are knitting and sewing for the soldiers at the front. The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in Parliament, since the "militants" have turned all their energies to aid the fighting men of England, and so suffrage may soon come after this terrible war is over.

Thousands of women in Canada have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely today, because it is made without alcohol or narcotics. It can sure be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper.

Many a woman is nervous and irritable, feels dragged down and worn out to do so reason that she can think of. In ninety-nine per cent. of these cases it is the womanly organism that requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of trouble. When that is corrected the other symptoms disappear.

St. Thomas, Ont.—"I wish to say for the benefit of other women who suffer that I recommend Dr. Pierce's Favorite Prescription as a great help. I have personally recommended the same to many who have been benefited a great deal by its use."—Mrs. E. J. Bowden, 19 Oliver St., St. Thomas, Ont.

THE DAILY POEM

TO A FALLEN SOLDIER.

I shall not mind about your grave
A bit of myrtle, creeping green,
Nor fee your dull sweet violets save,
For many billows roll between.

Beneath a pine you may not sleep,
Their whisperings you loved the best;
But kindly foreign birds will keep
A vigil o'er your lonely rest.

Oft blowing from the Isles of Night
Are secret tokens; and I thus
That you remember me and bright
The joy it brings unto my mind.

You will not come at morn or eve,
Since you have gone from 'Care and Fear.
But mellow winds make me believe
That you are oft-times very near.

In after years when our shall cease,
We two shall wander and be free;
And dream-lights in your eyes increase,
Through all our glad eternity.

By-Election in P.E.I. Goes Tory

Conservative Party Still Maintains Control of Provincial Government.

Charlottetown, P.E.I., Jan. 6.—The Conservative party's control of the provincial government was maintained today by the success of Henry D. McLean, in a legislative by-election in the first district of King's County. He was chosen to succeed Mr. "A" Sterns John McLean, recently appointed to the Senate—by a margin of 218 votes over Jauch'r MacDonald, Liberal. Had the Liberal candidate triumphed the Conservative government would have been reduced to a majority of a single vote, exclusive of the speaker. The Conservative majority in the last election for the seat was 294.

HIS MISTAKE.

He moved up to the city,
He had his little pile;
Built a house and had a garden,
Dressed his circle in city style;
He read the city papers,
And he ate the city food,

His boy became a dude;
He took a dash in politics,
The slow kind, of course;
He bought a high-powered motor,
It was faster than a horse.
He had a box at opera,
And a lot of silk-clad stock;
Then he broke into the centre
Of the city dress block;

Norris Government to Bring Forward Big Grist of Bills

Manitoba Legislature Now in Session—Much Important Legislation Forecasted, Including Prohibition Bill and Votes for Women

Winnipeg, Jan. 6.—The first session of the sixteenth legislature of the province of Manitoba was opened here today by His Honor Lieut.-Governor Sir Douglas Cameron, with the customary honors. In view of the fact that since the last session a new government under Premier Norris had come into power, receiving everything waiting support at the elections last August, the sessions were filled well in excited anticipation. The composition of the legislature is as follows: Thirty-nine Liberals, five Conservatives, two independents, and one Social Democrat.

The King's speech proved a comprehensive pronouncement, which because it outlined a very large body of government legislation. After alluding to the recent bountiful harvest, he speech referred to the war in part as follows: "We, as Canadians, are particularly Manitobans, are proud in being afforded the privilege of contributing our might and substance towards so great and noble a cause, confidently loyal forward such great care recognition and unstinting confidence that right and justice shall triumph over the unbridled domination of the sword. We know no cause to be a just one, and now we the purpose of the Empire so universal and so fixed as it is today that in these movies should be brought to a successful termination."

Legislation provides for provincial prohibition to be preceded by a popular referendum, a direct legislation bill, incorporating the initiative and referendum, a bill granting votes to women, a measure of compulsory education, accompanied by the repeal of the famous "Coldwell amendments," the Manitoba School Act, which aroused much Protestant opposition, a workmen's compensation act, and other bills reforming the patrol service and amending the elections act.

Careless Use of Soap Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking well. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

War's Activities In the Holy Land

Jerusalem Transformed Into an Armed Camp With Over 100,000 Men.

Missionaries tell how Jerusalem has suddenly become the centre of warlike activity.

A double-track railway line has been constructed from Damascus to Jerusalem and Gaza, and some distance beyond the ancient frontier line of Turkey and Egypt to the isthmus of Suez. Jerusalem itself is transformed into an armed camp, defended by trenches, and containing 100,000 men.

All the convents have already been converted into hospitals, with Turkish and German staffs, and the inhabitants are under strict supervision.

The army which is being formed there for the invasion of Egypt is under the command of a German General Trossener.

The Anglo-Egyptian army, however, is making extensive counter preparations, and the time of approach to Suez will not be easy or busy.

pletion of Railway to Grande Prairie Expected in About Eight Weeks.

A visitor in the city today is W. E. Shaw, of Grande Prairie City, who has just reached Edmonton over the D. & B. C. railway, and who speaks optimistic terms regarding present prosperity and conditions in that country that soon will be served with way facilities. The head of the Railway is expected to reach Grande Prairie City in about eight weeks.

Mr. Shaw is proprietor of the Kirk ward Hotel at Grand Prairie City, his trip to Edmonton this week is first of the time and trouble required even out to bring the residents Few Northwest into this city when sion demands. Leaving home last urday morning, Mr. Shaw journeyed celpid a distance of 110 miles to the E. D. & B. C. train at the city river. With the advent of the way into Grand Prairie, which Mr recommend will be about the last March, travelling between that city and Edmonton will replace its hours.

Immense Crops.

From the statements of Mr. Shaw it be seen also that the railway serves as to immediately lessen much re-than personal convenience it willing to send from Edmonton, mense crops of the Grand Prairie are given to the farmers thousands in thousands of bushels of excellent of the markets. Some of the farm have as much as 20,000 bushels of un-stored for shipment. The crops 1915 were remarkably heavy, some ds of oats yielding 120 bushels to acre.

In the development along lines of tensified farming the Grand Prairie strict has also produced a surplus of stock, and the first record from that locality will include many car-ds of cattle and hogs, as well as a ge quantity of dressed meat.

Weather in the district has been formly good so far this winter with the July's good sleighing, says Mr. Shaw. Stock was still grazing in the open fields when he left. Thresh have had more than they could lin during the winter in some cases, one outfit having fully a nth's threshing, which they will be ished in the spring.

OMB SAGE TEA IN HAIR TO DARKEN IT

's Grandmother's Recipe to keep her Locks Dark, Glossy, Thick.

The old-time mixture of Sage Tea nd Sulphur for darkening gray, treated and faded hair is grand-mother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sens-ible as we are living in an age when youthful appearance is of the great-est advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular be-cause nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what de-lights the ladies with Wyeth's Sage and Sulphur is that, besides beauti-fully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, pre-vents dandruff, itching scalp and fall-ing hair.

THANKS FOR SMOKES.

The Bulletin is in receipt of a letter of thanks from the commanding officer of the 1st battalion Newfoundland Regiment C.E.F. for smokes sent through the Bulletin tobacco fund. The letter is as follows:

"Dec. 6, 1915.
"1st. Batt. Newfoundland Regt.,
Med. Empl. Force
"On behalf of the men of the Regiment I wish to thank you most sincerely for your splendid gift of cigarettes and tobacco. I can assure you that they were most acceptable, for after the great storm before us our private stocks of cigarettes and tobacco were washed away. The arrival of these helped to lighten considerably the great hardships which the men had to undergo.
"To the donors we offer our most heartfelt thanks and I feel sure that they will be glad to know that the gifts for which they subscribed most generously reached their destination safely, in splendid condition, and were enjoyed by their "fellow colonists" from Britain's "ancient colony." Faithfully yours, on behalf of the commanding officer,

MAKES SUGGESTION FOR COMPROMISE

Chairman Ford of Street Railway Arbitration Board Suggests Clause For Consideration

At the conclusion of a considerable discussion by the members of the Board of Arbitration and the representatives of both the city and the employees of the street railway at the chairman, Col. F. Ford, K.C., ceased both sides to sleep over a suggestion he made an amendment to the clauses suggested by both sides with a view to reaching a satisfactory compromise. The suggested clause was as follows:

"Provided further that a workman may be laid off out of seniority instead of being dismissed if in the opinion if the superintendent he is so much less efficient than another workman in the same class as to amount to inefficiency."

FACES CHARGE OF APPROPRIATING MONEY OF DEPT.

Ralph P. McKay, Clerk of Public Works Dept., is Sent up for Trial

Ralph T. McKay, a clerk in the public works department of the provincial government, was remanded for trial yesterday afternoon by Magistrate Primrose on a charge of converting the sum of $86, the property of the department, to his own use. He was granted bail in the sum of $4,000 in his own recognizance and two sureties of $100 each. The money was to refund to the department from the C.P.R. and McKay received the money from an official of the company on December 31 and gave a receipt for the following, as noted. According to the witness, McKay at first stated that he had banked the money over to Mr. Hyde, the accountant who was his superior. On Mr. Hyde being called into the room the accused stated that he had not handed the money to Mr. Hyde but that he was moving, and as he was hard up he had used the money for his own purposes. He answered no defence.

The case against John Gable charged with driving an automobile to the danger of the public on Christmas Day, was adjourned after Constable McLean and Dr. Turcotte had given evidence. The constable said he saw the car go by Third street and Jasper at the rate of twenty-five miles an hour, and took its number. Later, when he arrived at Ninth street, he found that it had been with an accident. Dr. Turcotte gave evidence for attending Mrs. Mohr, one of the occupants of the car, who is at present in the hospital and still in a very serious condition.

DRUNKEN BRAWL AT MANNVILLE

W. Pepper Is In a Serious Condition in Consequence—Arrest Is Made.

A drunken brawl at a livery barn in Mannville, early Monday morning ended in the stabbing of W. Pepper, who is in a serious condition, and the arrest of a Galician named William Romaschek.

It appears that a number of men had been drinking, when a quarrel ensued, in the course of which Ramshek is alleged to have stabbed Pepper several times in the back and neck. The man was taken to the Alberta hotel, and Dr. Brace called in. Ramschek, further in that district, immediately left for his home, but was followed by Constable McLeod of the Mounted Police, and arrested. He was taken before a Justice of the peace and promptly remanded to the 14th, when it appeared the injured man may be able to give evidence. In the meantime, Romshek is being held at Fort Saskatchewan.

POLICE COURT

John Gandunyk was sent up for trial for the alleged theft of 24 pairs from William Romashek. The offence was alleged to have been committed on 10253 Kinistino avenue. Detective Irvine arrested Gandunyk on the charge and found $50 in a hole in the mattress of his bed.

Dr. Chase's Ointment

District Criminal Court.

(Before Judge Taylor)
Rex. vs. John Schroth.

In this case the prisoner stood charged with that on or about the 11th day of December, 1915, having theretofore received from Inspector Marshall the sum of $19.00 on terms requiring him the said John Schroth to see the same in obtaining certain evidence, and failing therein to return the same to Inspector Marshall, and fraudently convert to his own use and did, there upon, steal the said sum of money. His Honor found the prisoner guilty, and allowed him out on suspended sentence on condition that he go to Dunvegan, where he intended to take up a homestead. His Honor gave the prisoner a fatherly lecture, and told him that he thought there was enough in him to make good, and he then warned him to keep clear of intoxicating liquor.

R. B. Cogswell, K.C., appeared for the Crown and the accused was not professionally represented.

Rex. vs. Joseph Potter.

In this case the prisoner pleaded guilty to the charge of eleven thefts. His Honor sentenced Potter to eighteen months' hard labor in Fort Saskatchewan jail, sentence to run concurrently.

R. B. Cogswell, K.C., appeared for the Crown, and Porter appeared in person.

JOURNALIST DIES SUDDENLY

Charles W. Knapp, treasurer of the New York Times, and formerly editor and publisher of the St. Louis Republic, died suddenly Thursday at the office of the Times. Mr. Knapp's death was due to heart disease. He was 69 years of age, and was one of the founders and incorporators of the Associated Press and the Newspaper Publishers' Association. He was a member of the board of directors of the Associated Press at the time of his death.

VANCOUVER NOMINATIONS.

Thursday was civic nomination day in Vancouver. (With Mayor Taylor out of the way) the field appeared wide open for the mayoralty, and there is no less than five candidates in the field. They are: Joe Martin, W. Hepburn, J. D. McNeill, Mr. McBeath and Thomas Kirkpatrick. Betting up to date is rather in favor of the last-named.

GREAT HEROISM OF TROOPS AT GALLIPOLI WAS NULLIFIED BY BLUNDERS OF LEADERS

(Continued from Page One)

be considered the climax of four days' fighting for the ridge. Portions of our line were pierced, and the Turks were driven clean down the hill. At the foot of the hill the men who were supervising the transport of food and water were rallied by Staff Captain Street. Unhesitatingly they followed him back, where they plunged again into the midst of their retreating comrades, in whom generals fourth in the ranks, and men dropped their protecting rifles, and caught one another by the throat.

The Turks came on again and again. Fighting magnificently, and calling upon the name of God, our men stood to it, and maintained by many a deed of daring the old traditions of their race. There was no distinction; they died in the ranks where they stood. Here Generals Cayley, Baldwin and Cooper, and all their gallant men achieved great glory. On this bloody field fell General Baldwin, who earned his four laurels on Caesar's camp at Ladysmith. There, too, fell Brigadier-General Cooper, badly wounded.

Troops' Effort Spent.

"Toward this supreme struggle, the theosophe last two battalions from the general reserve were now hurried forward, but by ten in the morning the efforts of the enemy was spent. Soon their shattered remnants began to trickle back, leaving a track of corpses behind them. By night, except for prisoners or wounded, no live Turk was left upon our side of the ridge.

"Yet lesser attacks were made by the Turks the same day," General Hamilton continues. "By this evening the total casualties of General Birdwood's force had reached 12,000, which included a very large proportion of officers. The 13th Division of the new army, under Major-General Shaw, had alone lost its thousand out of a grand total of 10,500. Brigadier-General Baldwin was gone, and all his staff men and commanding officers, thirteen, had disappeared from the fighting effectives. The Warwicks and Worcesters had lost literally every officer.

"The one Alderman nation that no unit could stand the loss of more than twenty-five per cent, has been completely finished. The 13th Division and the 29th brigade of the 10th Division had lost more than twice their and in spirit were game for as much fighting as might be required."

The British had held all they gained, except two important stations, one a hill, inconveniently carried by the Gurkhas, and the position on Chunuk Bair, which had been retained as hours.

Grand Coup Failed.

"Unfortunately," says General Hamilton, "those two pieces of ground, small and worthless as they seemed, were worth, according to the ethics of war, 'six thousand lives, for by their loss of reduction, they had marked the differences between an important success and a signal victory. The grand coup had not come off, the narrows were out of sight, and beyond field gun range, that this was not the fault of General Birdwood or any of the officers, or men under his command."

The first operations in the Anzac zone appeared to have been carried out with comparative success. The Suvla Bay expedition, which has been the subject of the greatest criticism suffered various misfortunes. Malaria pain were worked out by the army staff with Vice-Admiral De Robeck.

During the night of the 11th a division, consisting of the 32nd and 11th brigades, were brought from Imbros to Suvla. Three brigades with four batteries were landed in the darkness. The Turks were completely surprised. The division made good its position ashore. Most of the supporting forces, consisting of the Irish 10th division, were awaiting for landing the fact of them at dawn from a distance of 120 miles at the psychological moment, when they were most needed.

But the navy was unwilling to land six battalions where the commander considered they could meet most effectually. The cause of the navy's action, General Hamilton says, was for some reason not specified, but it resulted in delay. The men were obliged to march a considerable distance under fire and arrived fatigued.

Many of Troops Were New Men.

General Hamilton lays stress on the fact that a large proportion of the troops were new men.

"On the morning of the 8th," says the report, "General Stopford, recollecting the vast issue which hung upon his success in forestalling the enemy urged his divisional commanders to push on, otherwise all the advantage of surprise landing must be nullified. But the divisional commanders believed themselves to be unable to move."

The weather was hot. The new troops suffered much from want of water. There was disorganization, inevitable after a night landing followed by days here and there with an enemy scattered over a country one knows.

These "ideas for delay," says General Hamilton, "were perfectly well founded, but it seems to have been overlooked that the half-defeated Turks in front of us were equally exhausted and disorganized, and that to advance was the simplest and swiftest course conclusion than the vote finally was reached that the resolution would fail.

With the exception of the Miners federation, which refused to participate owing to international differences with the joint board, virtually every trade union of importance in the country was represented by the congress. The number of societies voting in given from one source to 461 made up as follows:

Trade Unions 311, Trade councils and local labor parties 33, independent labor parties 42.

Not Representative, He Says.

Colonel John Ward, M.P., who calls himself an "Independent Labor..." corps, General De Lisle succeeding him.

Graphic Accounts of Suffering.

The accounts in the report of the suffering on the soldiers from lack of water are graphic. An enormous pipe was laid on from the shore either at a command at another station, a tank a reservoir holding thirty thousand gallons, with distributing pipes near built. Off this, tank capacity of thirty thousand gallons, were collected and fitted with handles, but an accident to a steamer delayed later off the supply at the time of landing. Describing the operations on August 10, General Hamilton explains why all the reserve spot not available.

"At times," he says, "I thought of throwing my reserves into this endurance central table, with heavy losses, on the 21st of August, which was designed to consolidate the fighting conditions. Imperial landing ceased then.

"However, the horror of a desperately trying summer, took a heavy toll of the survivors of so many arduous conflicts." The report continues: "In a rat ravine were cheerful. All remained confident that so long as they stuck to their guns, the country would again to them, and also them victoriously through the last and greatest of operations."

An important feature of the document is the declaration of the failure of the joint army and navy plans, for it probably the most difficult and complicated operations ever attempted on so large a scale. It was impossible to concentrate a third of the first troops to be launched in an attack on Suvla and Anzac within the confines of the British ground. Part of the forces were at Imbros, part at Anzac port, at Mytilene respectively, fourteen miles, sixty miles, and a mile from the area, in which they were to figure, simultaneously with munitions, stores, animals, vehicles, guns, particularly, water.

In conclusion, General Hamilton bids an eloquent farewell to his soldiers.

Night Is Back In Belgium

A message just received by the treasurer of the Canadian Belgian Relief Committee, 59 St. Peter street, Montreal, reads:

"We shall not fail Belgium in this crisis if we only grasp how desperate it is. But the lack required, though tiny in comparison with what Belgium has saved us, is big in voluntary contributions go. Claims are many. Those who give most freely are likely to have depleted pocketbooks. The satisfaction of starving Belgians will depend on how far we all make it an affair of personal honor to contribute something, however small, towards the discharge of this very sacred debt."

"Don't we forget this. If we are not meant to see Belgium through, we ought to have told her so before, she offered up her national life. We cannot see Belgium through if we let her people starve while we are driving the German car. Belgium is the Belgians' people. Talk of starvation may seem exaggerated to those in no danger of it. But—maniacs does not fail in the twentieth century. Each of us ought to keep faith in him, and no amount of optimism or lack of imagination or—sometimes the same thing—will make four six into two.

"The night is very black in Belgium now, but each of us can light a tiny away to throw a little light and hope into that darkness. Each of us can at least buy one loaf for a hungry woman or child out there, and many of us can buy thousands. But no one can buy more than he owns—no Briton to a Belgian in these days, and not one of us but shall serve his country's honor until all mankind is giving that help.

The day brings that Canadians can light to spread rays of happiness in Belgium's stark night that this our generation refers to may the work represented by the sacks of flour and the stoves of potato wheat that can be shipped from the Dominion to meet Canada's part of the debt. A loaf of flour means a tribute to the averse Canadian, it means life for a month to a Belgian family.

students of the technical school that Mr. Richardson be reinstated and it was decided to reconsider the petitioners the action taken by the board.

Teachers' Salaries.

A deputation from the city's associations of the city waited on the board, asking that the recent action to reconsidered. Mr. Edwards who headed the delegation, asked that the action of the board had affect and discontent, and they come before the board. He referred to other showing that the reduction in motion would not be revised as the were made to the board. Mr. J. McKenzie, in addressing the meeting said the teachers had charged the board being unfair, and since hearing deputation he was even less inclined to do anything in the matter that might have before. Two other gates explained that no reflected were intended on the board, who word "unfair" was not meant to apply and the board members of that question that the reduction worked against the best interests of the school. Justice on the teachers was carried to school board members who made an attack on the vice-principals receiving $12 being pointed out that they were cut 12½ per cent, while receiving $1,200 were only cut 4 per cent.

Petition Referred.

Trustee Rea moved that the action be referred to the school board next committee, which motion carried.

CHILD GETS SICK, CROSS, FEVERISH IF CONSTIPATED

"California Syrup of Figs" can't harm tender stomach or bowels.

A laxative today saves a sick tomorrow. Children simply will take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, Mother! coated, or your child is listless, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, sour bile and fermenting waste will gently move out of the bowels and you have a well, playful child again. A thorough "cleaning-up" is often all that is necessary. It should be the first thing given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is by "California Fig Syrup Company."

CARD OF THANKS.

Ross and Hardie Boxed a Four Round Draw at E.A.C.	# SPORTING NEWS *Edited by F. H. McPHERSON*	Best Hockey Game of Year Is Expected Here Tonight

George Ross and Clarence Hardie Boxed Four Rounds at E.A.C.

Bantamweights Displayed Some Scientific Boxing For a Small Crowd

Boxing fans will travel many miles before they find two more evenly matched boys than Georgie Ross, of the Vancouver A.C., and Con. Hardie, of the Edmonton E.A.C. Two weeks ago these boys, holders of the British Columbia and Alberta bantam titles, boxed four rounds to a draw. Last night they again hooked up, and one more the result was a draw at the end of three regulation rounds and two minutes overtime. The first three rounds were even, and while Ross had a slight margin in the fourth period, it was hardly enough to render a decision.

The Vancouver boy is faster on his feet than Hardie, and can use both hands to good effect, but the Alberta champion has more steam behind his punches. Con. ripped in some uppercuts that put a sudden termination to a couple of Ross rushes. Ross crowded his right to Hardie's chin in the overtime period, scoring several points by this useful punch. In a ten round bout it is possible that Hardie might wear the Coast boy down with body blows, but it will always be an even affair when boxing the short allowed under amateur regulations.

Brunner Some Battler

Lefty Brunner and Roberts locked horns for three rounds. With left foot advanced in the orthodox manner, Lefty commenced like the soft southern breeze. Just a minute had passed when the demon got into action, took aim and then came the Kansas tornado. Roberts thought there were a dozen of the Brunner tribe in the ring at once, and wilted against the ropes under the rain of lefts and rights, none of which injured their marks. The second and third rounds were more even, but Brunner got an unanimous decision from the judges. Next week Lefty will box Doc. Rankin, who is now a member of the 138th Battalion.

Patterson Gets a Draw

Shad Robertson and several pound the beater of George Patterson in the weights, and during the first round looked as if he was going to put a perfectly good baseball pitcher out of commission. But Pat" boxed the plate in the second round, picked up the fast ones with an effective bean ball or two, making up enough ground in the last two periods to secure a draw.

A battle royal, staged by five youngsters, and ending with a blindfold contest between the two survivors, created a lot of merriment. Scotty Mc-wheezed through three rounds with Runter to a draw, and Yan—e Mora secured a decision over Wilson.

WELSH vs. DUNDEE

(By Morning Bulletin Leased Wire)

NEW ORLEANS, Jan. 6.—Announcement was made by a local light heavyweight last night that Freddie Welsh, lightweight title-holder, had agreed to terms for a 20-round championship fight here either February 29 or March 1, with an opponent to be selected later. It was said that Johnny Dundee, of New York, probably would be signed to meet the champion.

McCARTHY IS BUSY.

Charlie McCarthy, the former Edmonton rugbyist, has been busying himself around New York for the past few weeks. He became sparring partner for Willie Ritchie a month ago and has been training with the former lightweight champion. He will box Gilbert Gallant at Providence, and then tackle Milburn Saylor in Milwaukee. Subsequently he meets Johnnie Burke at St. Paul and then proceed to Denver where he will take part in several matches. McCarthy claims the lightweight championship of Canada, on some unknown grounds, and is anxious to meet Johnny O'-Leary.

BORDEN BEARCATS MEET PENNANTS

Exciting Game Expected Tonight. Teams Now Tied For Lead of Division B.

It seems as if something will crack under the strain when Borden Bearcats and Pennants, tied for th. Division leadership in local A.A.H.A. company, meet at the South Side rink tonight. This is the first meeting between these teams, who have both tucked away two victories since the schedule opened. The game starts at 8 p.m. sharp, and the officials selected are Pete Burley and Jimmy Steele.

Manager Drayton will rely on the same line-up that has been so successful to date, but rumor hath it that Manager Wright, of the Pennants, will strip the blankets from several dark horses. Roy Goodrich, Harold Dean and Leo Trimble, all teammates with Wright in the Alberta line-up last winter, are mentioned as Pennant probabilities tonight. With four added players in the line-up, the Pennants are liable to give the Bearcats a brisk young evening's amusement.

CHAS. BRICKLEY MENTIONED AS A HARVARD COACH

CAMBRIDGE, Mass., Jan. 6—If Percy D. Haughton decides to lay aside the toga of his football coachship at Harvard, one man who has no small backing as his successor is Charles E. Brickley, captain of the famous 1914 eleven, and the best drop kicker ever developed.

Harvard alumni are loath to see Haughton pass out of Crimson gridiron activities, but if he declares that he has .... up his mind to quit the active part of coaching a big effort will be made to have him act as ...-a-y coach.

Brickley has demonstrated in more ways than one that he has the knack of instilling into other men the "points" which he picked up while a pupil of Haughton's.

He taught the Penn State boys the art of drop kicking last summer, which served them in good stead during the season, and then jumped over to Baltimore, taking a nondescript squad of players and turning out the best eleven ever developed at Johns Hopkins.

The John Hopkins team, altho it lost two games, held its opponents out of its class, succeeded in scoring in every contest played. The season at Baltimore, too, was a big success financially, and the Southerners are besieging the Everett youth to return in 1916.

MONARCHS BEAT KHAKI ALL STARS

Soldiers' Penalties Lost Them the Game in First Period—Score Was 4 to 2

(By Morning Bulletin Leased Wire)

WINNIPEG, Jan. 6—The Monarchs downed the Soldiers' All-Stars 4 to 2 here tonight in the second game of the Patriotic League series in a game which was fast and hard fought all the way. Contrary to expectations, Harry MacKenzie turned out at the last minute for the soldiers, and put up a fast aggressive game when he was on the ice, but he was ruled off too often to be of much value to his team.

The Monarch won the game in the first p...s.n, when after six All-Stars had taken the lead by scoring the first goal in .. minutes, they took advantage of four .... na penalty to Mac-Kenzie and Callin, to above in four goals in big time. It proved enough to win for them, as though they were pressed hard in the second session and at one time only had four to their opponents three on the ice, the kindly crew only allowed one score against them. t. Monarchs had the finish, and their rushes were always more dangerous than their opponents, but a sterling defence and fine goal tending by Stan Jack.... prevented many goals. The goal-diers worked hard, but were ineffective. George Hay, a youngster, who played his first senior hockey tonight b.... the star of the game, scoring two goals for the winners, and putting up a finished performance.

During his stay in the country, the Seattle boxer found the .... quiet brisk, to put it mildly, and after his first experience of .... below zero breezes, knows why champions will not grow in Alberta. Between periods so exciting thrown out at the old reef-feeder, Mr. O'Leary got on the track of the elusive coyote, but the .... s was not auy.

O'Leary will box a couple of boys at Athabasca on Monday evening, and will then proceed to Saskatoon, where he has been promised a bout on Jan 17. The Saskatoon promoters wish .... stack up either Leo Kossick or Buff Sidel against Johnny, both diplomatically as much in the lightweight class, as Jimmy Potts. O'Leary will demand some weighty concessions before he signs articles.

HARRY M'KENZIE HAS RETIRED FROM GAME OF HOCKEY

(By Morning Bulletin Leased Wire)

WINNIPEG, Jan. 5.—Winnipeg hockey fans received quite a jolt tonight, when Harry MacKenzie, who put McVille on the hockey map just announced he had retired from the game for this season at least. This means that Winnipeg will be deprived of the services of one of the greatest if not the greatest little player that ever picked him as Canada's best hockey artist. He had played one game with the soldiers and put up a sterling game, and it was expected that he would do all with them for the season. He is now a lieutenant in the army here and says that he is going to devote all his time to the army.

ST. PAUL, Minn., Jan. 6.—Mike Gibbons said he was tired of takes concerning the recent illness which caused the loss of the fight. In a statement he cased these words out of his system:

"It happened to me so it is likely to happen to any one of us. Pneumonia put me down for a while, but I am mighty glad to my feet now. During the period of my incapacity a lot of talk was spread. They said that I was attempting to duck my match with Young Ahearn.

"Now, I want to put the quietus on all such ones. There will be plenty of chance for me in the battle whether I win, lost or draw, and I will make a thousand dollars as well as the next fellow.

"When I am prepared right now to drop a thousand into any recognized sportsman's hands with " standing that the cash represents a flat bet, that when a man ... s a sterling game, and it is expected that he would do with them for the season. He is now a lieutenant in the army here and says that he is going to devote all his time to the army.

"This puts the question up to Ahearn or his manager. If they imagine I have been doing footwork to get away from them they've got a chance to grab a neat little piece of change."

TORONTO, Jan. 6.—"Glad" Murphy is resting quietly today after a critical operation performed on him yesterday.

DAVE DAVENPORT WILL BE STAR IN MAJOR LEAGUES

Disposal of Federal League Sets Many Clubs Clamoring For Noted Pitcher

PITTSBURGH, Jan. 6 Dave Davenport, giant hurler of the St. Louis Federals, will be one of the leading figures in baseball, since the final disposition of the great baseball squabble is made, for be it known that just about 16 Major League Club owners would like to get their claws on the elongated Dave.

Davenport is 6 feet and 6 inches tall. He weighs about 215 pounds, has an arm like a steel rod, a head that simply enshrines the ball, and a physique that would enable him to pitch every other day in the season if necessary.

Davenport broke into the majors a few years ago through the Cincinnati Reds route. He showed blinding speed from the start, and he had a dazzling assortment of curves. But he was shy of control. When he let go of the ball no one knew just where it was going to land.

"If Davenport ever learns control he'll be a pitching wonder," declared the Cincinnati critics. And then Davenport jumped to the Feds and into the waiting arms of Fielder Jones, one of the greatest developers of pitchers in the country.

Jones labored long and patiently with Davenport in an effort to curb that wild streak. When Davenport started off he had better than fair control—but he wasn't perfect. Jones kept coaching him throughout the season, and when the latter part of August came around, Jones argued that his services as a teacher no longer were necessary.

"I guess Davenport is ready to show the boys some real pitching," said Jones. "He can handle the ball now." On September 7, Davenport pitted his mighty right arm against the Chicago club, and held them hitless. On the 10th he allowed Newark only two hits; on the 13th he yielded but two against Brooklyn; on the 22nd, Baltimore secured only three hits off his delivery, and two days later Baltimore was able to dash down with three hits.

One no-hit game, two two-hit games and three three-hit games in one month; thats Davenport's record. Adding to the glory of Davenport's 1915 work is the fact that on July 21st he allowed Buffalo only one hit, shutting them out, and on April 18th he allowed Chicago only three hits.

During the season Davenport pitched nine shut-out games in the 61 full games he worked in but games in which he participated. In addition to those 61 full games in acted as relief pitcher in 15 others, working in 63 games altogether. In one of the relief games he went in the third inning, and allowed only one run put during the remaining six innings. In five other relief games in which he worked an average of four innings, he did not allow a hit.

Davenport's record for the season shows 55 games participated in, 22 won and 18 lost, for an average of .550.

Captain von Papen telegraphs
from Falmouth that the British
authorities have opened his pa-
pers. He is worrying over trifles.
If they opened his windpipe he
would get no more than he de-
serves.

Having defied the Government
to prosecute him for sedition Mr.
Bourassa is now working up a ra-
cial row to disrupt the Ontario
school system. Having found that
trouble-making is politically pro-
fitable he naturally stays on the
job.

Senator Gore proposes to recog-
nize the rights of piracy by refus-
ing United States citizens pass-
ports to travel on passenger ships
of belligerent nations. His claims
of humanity have no place in the
calculations of Senator Gore. It is
none of his concern if women and
children are drowned, so long as
the United States is saved the
trouble and possible cost of acting
as a great and civilized nation
ought to act.

It was intimated in connection
with the which-ever-it-was that
was held on New Year's day that
more events of this kind are being
arranged "in the near future. If
there is truth in the forecast it
pretty well establishes that there
is a definite propaganda on foot to
reintroduce the prize fight in this
part of the world under the ob-
scuring announcement of "boxing
contests." This would therefore
be a first class time for the author-
ities to advise all who may be con-
cerned that if any more "pre-
arranged" bouts are put on in this
province the participants, aids,
backers, and all others concerned
in engineering the affairs will have
to show the courts the legality of
the performances.

Berlin complains that a British
cruiser flew the United States flag
while manoeuvring to get within
range of one of its pirate craft.
That is typical. Transgressors of
the law are always most anxious
to call upon the law to save them
from punishment. We had an ex-
ample of that in Edmonton a year
or so ago, on a scale large enough
to be recalled without specifica-
tion. Having set the law of nations
at defiance by its submarine atro-
cities, Berlin has no standing in
the court of international jurisdic-
tion, and can make no rightful
complaint whether an avenging
ship fly one flag or another or no
flag at all. When a man by crime
has made himself an outlaw he be-
comes a legitimate target for any-
one who happens to get within
range and the marksmen is under
no legal or moral compunction to
provide the culprit with his name
and street address before he starts
shooting. Pirates, being the ene-
mies of all civilized nations, are
legitimate subjects of destruction
at the hands of anybody who
chooses to pay them their deserts,
and there is no way of accomplishing
that richly deserved and most de-
sirable end as warranted by the
object in view. If there is any
complaint to be made in this case
it must come from the United
States, and there is no evidence
that the people or Government of
that country object to pirates be-
ing shot, drowned or hanged even
under the unauthorized auspices
of "Old Glory."

Summarized, the report of the
Davidson Commission ought to be
that the grafters can sleep in
peace so far as it is concerned.

If Commissioner Davidson
wants to start a real sensation he
should report that somewhere,
sometime, the Militia Department
got something that was worth the
price.

If the Canadian people are to
get results at the front in propor-
tion to the sacrifices they are
making it is just as necessary that
the war grafters be rooted out
and punished, as a warning to
others, as it is that soldiers be
trained, equipped and forwarded
without delay.

Commissioner Davidson has
discovered that automobile tires
were bought by the Militia De-
partment from one company at
ninety dollars per set more than
the price at which tires of un-
questioned quality were supplied
by another company. The facts
are out now but their rehearsal
may serve to cement the tires
onto the public memory, so to
speak.

Mr. Thompson, who has been
acting as counsel for the David-
son Commission, has quit the job
and is going to enlist. Consider-
ing that the commission has done
very little more than review mat-
ters that had already been inves-
tigated by the Public Accounts
Committee of Parliament, it is to
be hoped Mr. Thompson will de-
velop more initiative as a soldier
than he has displayed as a prober.

Taking it all around the David-
son Commission has probably been
the prize farce of the Canadian
political stage. It has spent the
summer and money by the bar-
rel, travelling around the country
listening to evidence already tak-
en by the Public Accounts Com-
mittee of Parliament and publish-
ed months ago in a blue book.
Barring the bare stealing at Re-
gina and the horse business in
Peel county the commission might
as well have never been born for
all the real investigating it did.

It is announced from Ottawa
that Commissioner Davidson has
done all the investigating he is
going to do. The grafters are to be
congratulated. The commission
has done them as little damage as
possible. Only on two notable oc-
casions has it gone out of the
track followed by the public ac-
counts committee of Parliament a
year ago, and on each occasion it
encountered evidence of whole-
sale thievery the country had not
previously heard about. At Regina
—thanks to a quarrel between the
Minister of Militia and the local
Conservative candidate—it dis-
covered that twenty-three car-
loads of hay had been stolen. In
Peel county, Ontario, it found that
the local member of the Legisla-
ture had been supplied by the de-
partment with a letter of recom-
mendation to the purchasing
agencies which enabled him to col-
lect a rake-off on the horses
bought. The commission did not
go digging in new ground any
more. It stuck strictly to matters
the public had already heard
about. In fact if the commission
had been appointed to simply go
over the cases cited by the public
accounts committee of Parliament
in the world, Edmonton has at
hardly reached that stage, and, ac-
cording to Skinner's report, our cap-
ital charges here are .57 of a cent,
with other charges 2.93 cents, total
2.70 cents per kilowatt hour, as com-
pared with Pennsylvania conditions
at .9 of a cent per kilowatt hour.

With gas at 54 cents per 1000 cubic
feet, which is the cheapest Edmonton
rate, the Bulletin figures that a .50
cent horsepower per year would
cost, capital charges .4 of a cent,
other charges .75 of a cent, total 1.15
cents per k.w.h. Operating 24 hours
per day, 365 days per year, or $25.63
hours per year, every horsepower per
year would amount to 3256 k.w.h at
1.15 cents per k.w.h. or $37.77 per
horsepower per year, or, using Penn-
sylvania conditions of .9 of a cent per
k.w.h, at $29.56 per horsepower per
year. The power company with a .50
per cent. load factor gets only 1971
k.w.h. out of a horsepower per year,
which they sell at 1.15 cents per k.w.h
per horsepower per year. If they got
Pennsylvania conditions, or 3256 k.w-
h. out of every horsepower, instead
of 1971 k.w.h., they could stand
less than .8 of a cent and still make the
same price ($25.62) per horsepower
per year. So the Bulletin would have
us to agree to pay .8 of a cent, or
1.15 cents per k.w.h. on a 50 per cent
load factor, either of which is more
than 1.3 per cent, in view of the
load factor.

According to Mr. Skinner, in a
statement to last year's council, gas
at 15 cents was not as cheap as coal
at the present price for power house
purposes.

The increase in load factor increas-
es the output and increases the cost
of production. An increase from 30
per cent. to 50 per cent load factor is
50 per cent. would nearly double our
output which has very little additional
expense, and would reduce the cost of
production to a large degree.

people—those who were willing.
The proposal now is that the duty
of the whole people to protect
the empire and the liberty of its
citizens shall be recognized by
calling up for military service
that section of the population
upon whom must—and should—
always rest the first and greatest
burden of warfare—the unmar-
ried men in the prime of life.
Nothing could be more reason-
able or fair. And yet the pro-
posal is met with bitter opposi-
tion. The empire is at stake to-
day in the proceedings of the Brit-
ish parliament and in the spirit of
the people. The Teuton-Turkish al-
liance is watching the result more
hopefully than they watched the
battles around Ypres or before
Warsaw, and beyond question
have their paid emissaries in the
counsels of those who are prevent-
ing the empire from putting forth
its last ounce of strength in the
death struggle now in progress;
and thereby discrediting its good
faith with its allies. If ever there
was a time for prayer it is now;
that the eyes of all sections of the
British people may be opened to
the danger in which they stand,
and the need of meeting that dan-
ger at once with all the strength
they can command, God can only
be expected to help those who
will help themselves.

THE CALL OF THE WEST.

The haze on the far horizon,
The tint of an azure sky,
The infinite ocean of wheatfields
With the wild geese flying high,
The hum of the busy binder,
The laugh, the song, the jest,
All of earth's will freedom—
this is the call of the West.

The crisp frost air of the winter,
The sun in a tropic sky,
The snow shoe tramp by the river
The cur curler's call "Tee dii!"
The northern lights in the heavens
The healthiest land and the best,
The nearest to life that's nowhere
Except—the land of the West.

It's a land of hope and promise,
Where a man is known by his worth,
To the Russ, Icelander or Saxon,
No matter the land of his birth,
To each and to all there's a welcome
in the land of liberty blessed,
Oppressions and tyranny elsewhere,
But not in the land of the West.

'Tis a land that is free from tradition,
Where a man meets a friend as a man,
Where people mix up and are doing—
They can, for they know they can!
'Tis a land that is fast becoming
The home of the wanderer's quest,
Where the patriot sings with devotion:
My country, the land of the West.

And far, far away o'er the ocean,
A sweetheart, a sister, a wife,
Is longing, waiting and wishing
To obtain a renewal of life
In this land where for all there is
plenty,
That they may enjoy with the rest,
The fulfillment of hope and of pro-
mise;
This is the call of the West.

CENTENARY OF LOCOMOTIVE.
A centennial that passed almost un-
observed recently was the advent of
the locomotive, which was that of the loco-
motive, probably the greatest factor
in the marvelous development of the
world in the past century. It was
just a hundred years ago, late in 1816,
that George Stephenson completed the
first engine to be operated on a rail-
road by direct transmission of power.
Railroads there had been for years,
but only strips of iron along which
horses pulled wagons, generally in the
depths of England.

Stephenson, an ignorant young min-
er, rose to be a master mechanic and
then an engineer. His first locomo-
tive, called the "Blucher," was a crude
and primitive affair, operated by
means of spur wheels. His second
attempt, "Billy No. 1," was finished in
1814 and was the forerunner of the
giant Moguls and Mikados of today.
The new double wrapper is a
"Rocket" (which now is retained as a relic at
Darlington, Yorkshire, England) at-
tained a speed of twenty-nine miles an
hour. A few years before the first
steam railway had been opened be-
tween Stockton and Darlington, and
opened the Manchester and Liverpool
railway was an accomplished fact.
From that time on the growth of the
railroad in England was steady if not
rapid.

Big War Orders Are Filled By Edmonton Packing Plants

**Burns Packing Plant Sends Fifty Carloads of Beef to French Gov-
ernment—Gainers Supplying 3,000 Pounds of Meat
Daily to Local Battalions.**

War orders, direct and indirect, have
had the effect of advancing prices on
many lines of farm foodstuffs in Al-
berta, and one of the important in-
creases within the past year has been
the demand and prices for live stock.
A recent order filled by the P. Burns
Company of Calgary and Edmonton
for the French war office, shows that
the market for Alberta beef is recog-
nized as of much value over in Europe,
and this order will probably be follow-
ed for some from time to time.

The order from the French govern-
ment was placed last month through
the Calgary office of the P. Burns
Company, and amounted to 125 car-
loads of beef in five sections. Fifty of
these cars were shipped from the new
plant of the company in this city, the
others recently-five going forward from
Calgary. These carloads averaged
fifty carcasses each so that it will be
seen that well over 6,000 Alberta-raised
cattle went across in the one order to
help maintain the fighting spirit of the
French forces. The last of the ship-
ments from Calgary and Edmonton
went forward a few days before Christ-
mas.

Another important contract secured
by local packing houses was that ob-
tained from the Dominion government
by Gainers Limited, of the South side
who have the order for supplying the
three battalions now fully recruited
and stationed in the city since the first
of November. These units consume
practically 3,000 pounds of meat
daily, so that it has already required
about 100,000 pounds of beef, pork,
mutton and fish to supply the commis-
sary needs of the battalions to date.
Already the supply of hogs is very
short in Alberta, at which the best
evidence is the high prices being paid
at the present time by the packers, a
price that exceeds by two cents the
Chicago markets. Cattle are more
plentiful, but prices are holding firm
and fairly high.

"Parliament and the people are of
one accord," said Paul Deschanel, pre-
sident of the French chamber of de-
puties. "They say to the world, 'to
the very end.' "

Prohibition For New Brunswick, Probably by Plebiscite, is Announced

**Government to Introduce Legislation at Forthcoming Session of
Legislature—East is Following Praiseworthy
Example of West**

St. John, N.B., Jan. 6.—"The Standard
a government newspaper, announces
that the New Brunswick government,
at the approaching session of the legis-
lature, will present legislation for the
prohibition of the liquor traffic, but
whether for the duration of the war
or longer, is not announced. It is
believed the bill will provide for a
vote of the people of the province.

POWER QUESTION AGAIN

Editor Bulletin:
I noticed in this morning's Bulletin
an editorial with reference to E. N.
Halleck obtaining some information
from the Westinghouse people re gas
engines. Mr. Halleck obtained this
information during the hydro-electric
campaign and was put on the list of
speakers the evening the meeting was
held at the King Edward school. Why
did he not give this information then?
The Answer is, Mr. Bowness also had
a copy of the same telegram, and pre-
ceded Mr. Halleck on the platform,
and so completely shattered that gen-
tleman's argument that he declined to
speak when his turn came.

And now a month and a half later,
the Bulletin has received this bit of
news, and adds that "the power agree-
ment calls for a .99 per cent, load fac-
tor." The agreement does not call
for any percentage of load factor
whatsoever. A .99 per cent. load fac-
tor would be an absolute impossibility
in a public power plant. The present
load factor in Edmonton for the year
will hardly average .50 per cent.

In speaking about the .99 per cent.
load factor, hours of operation, capi-
tal charges 4-10 of a cent, all other
charges 5-10 of a cent, make Western,
Pennsylvania conditions." This
is in answer to a request for price for
electrical power, using gas at 19 cents
per 1000 cubic feet.

In the first place, Northern Penn-
sylvania conditions are those of one
of the largest manufacturing centres
(10658 100th street.)
R. MORRIS.

From the Exchanges

Red Willow: The farmers of Red
Willow met at Habourt Church on
Thursday, December 16th, for the
purpose of taking the preliminary
steps of forming a local union of the
United Farmers of Alberta. Mr. D.
G. McArthur acted as chairman and
Mr. Walter Pilmell as secretary. The
meeting was unanimous for organiza-
tion.—Frontier Signal, Grande Prairie.

Beaver Lodge: A meeting of the
Farmers' Organization was held in
Beaver Lodge on Friday evening, De-
cember 17th. Mr. Johnson, president
of the agricultural association, occu-
pied the chair and among the speak-
ers were Messrs. Flint, Smith, A. Pat-
terson, M.P.P. Johnson and others.
The most interesting feature of the
evening was the report of Mr. Al-
bright of the experimental work he
has been conducting at Beaver Lodge.
Good samples of alfalfa, clover, etc.,
were shown, and Mr. Albright satisfied
all those present that almost anything,
including pineapples and sweet pota-
toes, can be successfully grown here.
Great praise is due Mr. Albright for
his labors considering the small re-
muneration given.—Frontier Signal,
Grande Prairie.

Grande Prairie City: Mr. A. Boulan-
ger who joined the 66th, has been in-
valided home and arrived Monday
night. He was in the hospital for a
time, but is now much improved and
thinks after a few weeks of our
Grande Prairie climate he will be
fully recovered. No one can stand
the weather here and doctor's
medicine at the same time.—Frontier
Signal.

Current Comment

Hearst's "New York American": "It
really looks as if the only way Ameri-
cans can take to insure freedom of
trade and decent treatment on the
world's highways is to beg Canada
to annex this country and put us un-
der the British flag."

Montreal Gazette: China's strong
man, who has reached the throne, to
inaugurate compulsory military ser-
vice immediately. The empire's popu-
lation is numbered in the hundreds of
millions, so that there is no dearth
of raw material for an enormous army,
if things are managed intelligently.
Perhaps the Chinese will wake up and
make other and more ambitious
powers respect their rights and terri-
tory.

Ottawa Evening Journal: "It's a
splendid ideal to let our country's
safety and freedom depend on volun-
tary patriotism," proclaim some peo-
ple. Isn't it a splendid idea that the
voluntary patriotism of a nation
should send its youth into training for
a year for the protection of freedom?
Do you argue that compulsion is a
wrong? Do we shame ourselves and
declare patriotism when we enforce
compulsory school education, as we
do? Shall we shame ourselves by
prohibition? Is not the defence of
our freedom as noble a thing as edu-
cation? Or a temperance?

Calgary Herald: The explanation
given in connection with the failure of
the city power plant on Wednesday
evening, following the collapse of one
of the Calgary Power Company's
Kananaskis transmission lines is, to
say the least, unsatisfactory.

But the hard month what, the
power company did or did not do or
what was done or not done at the
city plant at Victoria Park. The
force is liable to think the supply as
the people of Calgary is the thing was
an accident at Kananaskis which in-
terrupted the supply of hydro-electric
power, and when that accident hap-
pened the city's steam plant, in-
stead of being operated intelligently
to furnish power to run the street
railway at the most important time of
the day.

MONEY AND MARKETS

GRAIN MARKETS

WINNIPEG GRAIN.

Winnipeg, Jan. 6—Wheat opened 1-3 lower with May at 1.21 1-2 and July the same. Minneapolis was 1-4 to 1-2c higher with May at 1.24 1-4 and July at 1.23 1-4. Chicago opened 5-8 higher, with May at 1.27 3-4 and July at 1.19 5-4.

Cables were lower for cargoes and unchanged for spot, but after the opening this seemed to be but kind of and prices advanced easily, and by 10.15 Winnipeg May had gained 3-4c. Buying was quite liberal, and in fact, everyone that Winnipeg May was bought and Chicago May sold both by the public and exporters.

All British shipowners plying with Argentina have been requested to load 75 per cent. wheat after February 1. It is hoped this will relieve the situation materially, and it is rumored that additional tonnage will be shortly added.

The movement in cash wheat was very light for the first half hour. The inspections yesterday was 510 cars as compared with 187 a year ago; in sight today, 200.

WINNIPEG CLOSE.

Winnipeg, Jan. 6—Winnipeg closed at a drop of 1-4 to 3-8. Chicago dropped 1-4 and Minneapolis closed at an advance of 1-4 to 5-8 cents.

The cash situation was peculiar, there being only a limited demand to wheat in store at any price and an unlimited demand and 2 cent to 5 cent premiums on anything that could be immediately shipped to Boston or Montreal. My price was obtainable for any oats that could be put on track, though there is a carrying charge of 5 cents now on anything in store. There were twenty loads worked on seaboard West St. Johns for March and April shipment.

Winnipeg market: Wheat—May 1.21 1-2, 1.21 3-4; July 1.21, 1.21 1-4.
Oats—May 46 3-4, 46.
Flax—May 2.07 3-4, 2.07 3-4.
Winnipeg cash: Wheat—1 Northern, 1.16; 2 Northern, 1.13 3-4; 3 Northern, 1.09 3-4; No. 4, 1.04 3-4; No. 5, .97 3-4; No. 6, .87 3-4; feed, 77 3-4.
Oats—2 C.W., 41; 3 C.W., 38; extra 1 feed, 38; 1 feed, 37; 2 feed, 36.
Barley—No. 3, 61; No. 4, 56; feed, 48.
Flax—1 N.W.C., 199; 2 C.W., 196.
Minneapolis—May 1.24 1-4, 1.24 3-8; July 1.19 3-4, 1.19 7-8.
Minneapolis—May 1.24 1-4, 1.24 3-8; July 1.23 1-4, 1.23.

CHICAGO GRAIN.

Chicago, Jan. 6—Wheat developed fresh strength today, influenced by the fact that rumors of the Kaiser's death had failed to be confirmed. The presence of a fresh wave in the absence of snow protection over the winter crop belt tended also to lift prices. Advances in ocean freight rates, however, and lower quotations from Liverpool acted as a handicap on the bulls. The opening, which ranged from 5-8 to 5-8 higher, with May at 1.27 1-2 to 1.27 3-4 and July at 1.19 5-8 to 1.19 3-4, was followed by decided further gains, but then a sharp reaction.

Oats hardened with other grains. Bulls pointed out that oats were 4c lower than a year ago, whereas corn was 1 cent higher.

Higher prices on hogs gave a lift to provisions. Gains, though, were not fully maintained.

CHICAGO CASH GRAIN.

Chicago, Jan. 6—Cash close: wheat—2 red 1.26 1-2, 3 red, 1.24 1-2 to 1.2; 1-3; 2 hard 1.24 1-2 to 1.24; 1 hard 1.20 1-2 to 1.22 1-4.

MINNEAPOLIS GRAIN.

TORONTO LIVE STOCK.

(By Morning Bulletin Leased Wire)
TORONTO, Jan. 6—Receipts at the Union stock yards today were 229 cattle, 25 calves, 1,562 hogs and 177 sheep and lambs.

There was but a light run today, and practically everything went out at good steady prices, but not any higher than this week's market. Choice butcher cattle in good demand. Small demand for a few good feeders. Choice quality milch cows in fair demand, but a slow market for poor quality.

Calves steady to firm for good veal. Light sheep and lambs firm, extra to choice lambs selling up to 11.75.

The bulk of the receipts of hogs this week shipped direct to the big packers from Winnipeg and the western provinces. Feeders quotations are unchanged at $9, fed and watered, $9.25.

WINNIPEG LIVE STOCK.

(By Morning Bulletin Leased Wire)
WINNIPEG, Jan. 6—The cattle market today was steady, and prices of butcher cattle were 25 per cent. stronger. Receipts are still light, between 90 and 100 head on sale today. The tone of the market shows a big improvement since the holiday season. The demand for superior cattle is good. Stockers and feeders are a slow feature the demand for this class of stuff being dead. Milk cows and springers are slow, while the demand has fallen off; sales are steady. Sheep and lambs sold steady to firm, but receipts are light. Very few calves coming; but now; prices are unchanged and the demand is fairly good. The hog market today is steady; receipts are getting heavier, there being over 2,100 hogs on sale today. Prices remained firm at 9c for selects. Eastern and local buyers are looking for hogs. Quotations:
Steers—Choice heavy, 6.30 to 6.75; choice butcher 6 to 6.25; fair to good, 5.60 to 5.85; common butcher, 5 to 5.25.

HIS TRIP RECALLS DIFFICULTIES OF OLD-TIME TRAVEL

Makes Journey of Three Hundred Miles in Order to File on Homestead

LAND OFFICE NEEDED AT FORT VERMILION

Slept in Open Air on Frosty Nights, Only Sky For Canopy

The difficulties of winter travel between Peace River, the head of steel in the north country, and Fort Vermilion, 390 miles further north and down the river, are strikingly illustrated by the trip over-land between the two points, made with horse and flat sleigh by Isaac Lawrence, of Vermilion, who reached Edmonton on Wednesday.

Sleeping in the open air, ten of the twelve nights spent on the journey, with the sky for a canopy and a mattress of spruce boughs between him and the frozen ground, Mr. Lawrence's experience revives the reverie of old-time travel to Fort Edmonton, long before the railway "came" across the prairies. Much of the trail was unbroken, with the snow so deep in some places that Mr. Lawrence was obliged to break the trail with snow-shoes for the team and toboggan.

Met Wild Animals.

Between the Keg and Battle rivers, a distance of nearly 100 miles, the road is little more than a pack trail, and in more than one instance along this lonely stretch Mr. Lawrence was obliged to dispatch wild animals, which had been caught in traps set along the trail, and which prevented his getting past in the narrow trail. At first some of these traps were reset, but the consequent delays were too numerous, and the animals with their valuable pelts, were simply killed and buried in snow for the benefit of the trapper-owners, who would come along later.

A trip of the nature of Mr. Lawrence's serves to show the need of land office facilities at Fort Vermilion, the journey was primarily for the purpose of filing on homesteads in the Vermilion district. The Peace River Dominion lands office at present is the farthest north, despite the large settlement in the vicinity of Fort Vermilion. Recently two homesteaders walked the 390 miles to file on their land, and many others are planning to make the journey necessary to secure their homesteads.

Third Varsity Contingent is Now in Flanders

The following extract from a letter written by Private Reginald Henry to His Worship the Mayor and Mrs. Henry, dated December 12, and received a day or so ago, is an interesting indication of where our soldier students happen to be:

"I am now with the regiment somewhere in Flanders. We left home two weeks ago and spent some time at the base, outfitting. We have seen realized in these short days the "now" of war and are all very comfortable. Lots of straw, instead of blankets to sleep on with plenty of eats.

"We are allowed to go to town at night.

"49th Battalion from home, also the 19th Alberta Dragoons, now the 3rd C.M.R. are there. Some of the fellows of the present company saw Harold Riddell, Jack Harrison and Jack McLeod last week.

"I am in a platoon composed almost entirely of Edmonton men, and we are quite at home. Our billets are near enough to the firing line to enable us to hear the report of big guns and see the flare of sky shells."

Private Henry left Edmonton with the 3rd University contingent, on July 24th last.

To Join Forces In the City's Betterment

Speeches Favor Amalgamation of Industrial Association and Board of Trade.

So far as expressed by a large number at the luncheon yesterday noon in the Kala house, the Industrial Association is unanimously in favor of joining forces with the board of trade for future efforts along the lines of general publicity and municipal betterment.

The matter, however, will not be formally voted upon until Thursday next when a vote of motion being given to that effect.

Mayor McNamara, one of the speakers, favoring the idea of union. His message was that Edmonton in every sense needs the united and harmonious help of all citizens during 1916. President Tory, of the University of Alberta spoke of the benefits of unity, referring to his recent trip through the United States as showing that the outside world regards Edmonton with a larger eye than Edmontonians regard themselves. Americans remarked with one accord, 'Edmonton is going to be a great city.'

Other speakers were L. L. Pearce, J. E. Brown, M. R. Jennings, Hon. H. Chadwick, W. L. Richardson, W. J. Magrath, J. L. Conover, H. H. Halfield, N. G. Pearce and John Blue, one and all uniting in strongest terms that the amalgamation be effected and that this big organization be given heartiest support in the advertising and development of Edmonton.

Local Men In Casualty List

William Forster, South Side, Dies of Wounds—Two Other Men Killed in Action

The casualties in the 31st Battalion, from Calgary, which included a number of Edmonton men when it "went" last year included yesterday morning the name of William Forster, of the South Side, who died of wounds received in a recent engagement. Forster was a young man and unmarried, and enlisted in the ambulance corps nearly one year ago. He was an Englishman by birth and had resided in Edmonton some time with his parents in Hazelton, on the South Side. A brother is employed in one of the city banks. The deceased was employed for a time by the Hudson's Bay Company at Athabasca.

The Harold M. Luxton of Banff, who is also reported killed, was a son of the late W. F. Luxton, founder of the Winnipeg Free Press, and a brother of W. K. Luxton of Banff. The other local man who also lost his life in the field of battle, under the colors of the Star, was Thomas A. Guscott, of Athabasca.

RUSSIANS FORGING AHEAD.

The enormous Russian southern armies are now said to be close to Novel Volhynia. This railway centre is of importance because it joins forms the connection between Austro-German central armies and their southern wing. It is for this reason that the Austro-Germans are trying with the utmost tenacity to hold their positions.

CROWN PRINCE'S MESSAGE.

In the order of the day, issued January 1, Crown Prince Frederick William said: "Comrades of the fifth army, for the second time we are at the enemy's country on New Year's Day. Forward with God, for the Emperor and Germany, towards a great future."
